

Registration Form

Participation for Know your numbers 2010 17 – 23 May

The National Stroke Foundation invites you to register to participate in the 2010 *Know your numbers* blood pressure awareness campaign. Please complete the following registration form to register your participation and run a 'pressure station' in your local community.

Know your numbers will run from **17-23 May 2010** in Victoria, Queensland and New South Wales. Pressure stations are encouraged to check **100** people throughout the annual week long campaign.

What is involved?

You can set up a blood pressure station in your community, pharmacy, shopping centre, community health centre etc and provide an opportunity for people to check their blood pressure (BP) and receive information about how to reduce their risk of stroke.

Resources and support

All 'pressure stations' will be provided with a Resource Kit containing all the essential campaign & consumer materials and digital BP monitor to successfully run a pressure station (for new participants).

Once you register, you will be emailed or faxed a confirmation and regular *Know your numbers* newsletter updates so that you can begin planning for *Know your numbers* in 2010.

NAME OF CONTACT: _____

PHARMACY NAME: _____

STATION I.D (if you have previously participated): _____
